## ***EAA Chapter 145 Meeting: Friday November 10, 7:00pm Our Hanger***

How do you fly a few inches above the ground? Come to this months meeting and hear Don Bender explain how this is done. Don designs and builds hovercrafts in his Middleville shop. He will give information, show materials and answer question on the unique type of experimental craft.

Something's to think about discussing at this months meeting:

- Payment of dues for 2007
- Election of officers for 2007
- Newsletter editor for winter
- Web page administrator
- Future programs/activities

Last month's meeting was the annual picnic in cooperation with the Riverview pilots club. The weather was VFR; overcast with light mist...the pilots, family and friends came anyway. About 90 of us enjoyed the food, fellowship and fire. Top "marks" to those who helped plan, set up and cook.

In December we are planning to meet at the annual Christmas party with Riverview Airport...more details later.

If any one has questions, comments or information about future EAA 145 meeting, please contact Dick Foster (616-538-8849)
